

Specifically designed for HD bagger motorcycles, ARC Audio amplifiers give you the best of both worlds, Power and Quality. With amplifier designs capable of producing over 600 watts ARC amplifiers can take your factory stereo from zero to hero in a single package solution.

When it comes to dynamics and overall sound quality nothing beats raw power except clean power. With amplifiers like the Moto 600.4 amplifier that is exactly what you get delivering 150 watts into 4 channels at 2 or 4 ohms giving your speakers more than enough dynamic power to satisfy even the most demanding listeners without taxing

your factory charging system beyond its limits. ARC Audio's patent pending power supply design achieves a mind staggering 90%+ efficiency on certain models allowing you to get full power without needing a ton of power for your bike.

	KS125.2 mini	KS125.4 mini	KS500.1 mini	MOTO 600.4

The ARC Audio "Moto" Series is the optimum balance of acoustical harmony and ultra Hi-Performance all wrapped up in a single design that caters specifically to the motorcycle environment. ARC Audio's XDi and Moto Series speakers use only today's most advanced and durable acoustical materials and components

allowing users a cost friendly solution that will give any enthusiast an unparalleled musical experience on their motorcycle.

Using every available resource during our development process, ARC Audio speakers are carefully optimized to give you the most realistic and tonally accurate sound possible. Be prepared to go into sensory overload with rich natural vocals, enhanced low frequencies and detailed highs that will leave you with the feeling that you took the concert with you on the open road.

ARC Audio's motorcycle installation accessories are built with a smooth and seamless installation process in mind for your HD motorcycle. Quality materials with proven design each of the available accessories are custom fit and tailored to adapt to your HD motorcycle and individual needs without the need of warranty voiding modifications or expensive custom work. Experience the difference in ARC Audio.

HD Power offers an easy solution to your higher power needs. Made of high quality OFC cable HD Power capable of up to 60A continuous draw HD Power is a perfect match for the MOTO 600.4.

HD POWER

HD HARNESS

Designed by trained HD technicians the HD harness offers you a complete plug and play solution for your ARC Audio amplifier installation in your HD motorcycle. Includes all mounting hardware.

Made of reinforced Hi-Temp ABS the ARC Audio 6.5" adapter rings are a simple drop in solution for most 1999-2014 HD dressers giving you the ability to install larger speakers, increasing your output and improving low frequency response.

6.5" SPEAKER ADAPTER RINGS

2014+ ADAPTER HARNESS

Designed specifically for the newest of HD Streetglide and Roadglides the 2014+ Adapter Harness is a supplemental necessity to the HD Harness retaining 100% plug and play integration of your ARC Audio amplifier.

Specifically designed for the 2015+ HD Roadglide motorcycle the RG15 allows you a no cut no mod installation solution for the KS125.2mini and Moto 600.4 amplifiers in the stock HD amplifier location. All mounting hardware included.

Hi-Performance audio for your HD motorcycle without the loss of your saddle bags? For most this is an unheard of combination that has resulted in the loss of all storage space and/or utility of your motorcycle. The ARC Audio MPAK (Motorcycle Performance Audio Kits) gives users plug and play solutions that lets riders upgrade their factory HD Bagger motorcycle audio system while keeping their precious cargo space.

With the proven performance, power and quality of the ARC Audio KS125.2 BX2 Mini and the 600 watt ARC Audio Moto 600.4 you are guaranteed the most performance and value combined over any other brand or product on the market.

MPAK KITS 1-8

FITS MOST 2000-2014 HD ROADGLIDE
2000-2015 HD STREETGLIDE

Features-

- Up to 250 Watts of power
- Improves overall volume and frequency response
- Installs discretely inside your motorcycles fairing
- No Loss of space in your side bags or touring pack
- Retain all factory handle bar stereo controls and features
- Speakers mount to factory locations with no modifications
- Designed to work with factory motorcycle charging system
- Multiple kits to allow different levels of performance and fitment
- Full step-by-step color instruction manual for easy DIY installation
- Most kits include 6.5" adapter rings for more overall performance and a bigger sound
- Plug and play wire harness allows for cut free installation avoiding possible warranty issues

MPAK KITS 10-12

FITS MOST 2015+ HD ROADGLIDE
2016+ HD STREETGLIDE

Features-

- Up to 600 Watts of power
- Full Plug and Play design
- Retains all factory handle bar controls
- Includes 2014+ HD Harness adapter kits
- Installation does not void factory warranty
- Improves overall volume and frequency response
- Installs inside the fairing in the stock amp location
- Integrates seamlessly to the factory HD audio system
- Moto 600.4 amp kits include upgraded power/ground kits
- Full step-by-step color instruction manual for easy DIY installation
- System designed to provide full power on 2 or 4 ohm systems
- Plug based amplifier design improves serviceability and ease of access
